February 10, 2026

Dear Member:

It's that time of year again. And to remain in compliance with Washington State drinking water regulations, WAC 246-490, which requires public water systems to develop and implement cross-contamination control programs which help protect public health by preventing contamination of the drinking water as it is delivered to water system customers. This questionnaire is being sent to you for completion and return.

As part of our efforts to keep your drinking water safe, we conduct a **yearly** cross-contamination hazard survey of residential customers served by our system. The purpose of the survey is to help us determine if any of our members have special plumbing or activities on their premises that could increase the risk of contamination of our water system.

Please complete the brief questionnaire below by checking the applicable boxes on the table; and return it, providing your name and house address, to the address shown on this letterhead above, or scan your completed questionnaire and email it to [BVCC@ymail.com](mailto:BVCC@ymail.com). Please return the completed questionnaire by April 1<sup>st</sup>, 2026.

YES	NO	PLUMBING OR ACTIVITY ON YOUR PREMISIS
		Water Softener or Treatment System / SALT BASED
		Water Softener or Treatment System / CHEMICAL BASED
		Underground Sprinkler System
		Swimming Pool
		Hot Tub or Spa
		Decorative Pond
		Photo Lab / Dark Room

Homeowner: \_\_\_\_\_

Home Address: \_\_\_\_\_

Thank you for completing and returning the above survey. We will review your response to this survey and determine whether we need to contact you with further information. We appreciate your cooperation in helping us protect the drinking water we deliver to all our members.

Sincerely,

BVCC Board of Trustees
